

# One Step Equations Worksheet

Name: \_\_\_\_\_

Date: \_\_\_\_\_

## Category 1: By Operation

Addition One-Step Equations

- All problems involve solving for  $x$  using addition.
- Example:  $x + 7 = 13$

## Category 2: By Number Type

Integer-Based One-Step Equations

- Easy level with only whole numbers.
- Great for Grade 6–7 students.

## Category 3: Skill-Based Practice

One-Step Word Problems

- Students translate word problems into equations.
- Example: “You subtract 6 from a number and get 9.”
