

Reading a Tape Measure Worksheet

Name: _____

Date: _____

Grade: _____

Instructions:

Convert each fractional inch to its decimal equivalent and then to centimeters.

Use:

- Fraction → Decimal: Divide numerator by denominator
- Inch → Centimeters: Multiply decimal by 2.54

Fraction (Inches)	Decimal (Inches)	Length (Centimeters)
$\frac{1}{16}$		
$\frac{1}{8}$		
$\frac{3}{16}$		
$\frac{1}{4}$		
$\frac{5}{16}$		
$\frac{3}{8}$		
$\frac{7}{16}$		
$\frac{1}{2}$
