

Counting Atoms Worksheet

Count atoms in key biochemical molecules

1. Glucose
2. DNA Nucleotide
3. Cholesterol
4. Hemoglobin Unit
5. Insulin
6. Ribose Sugar

Analyze and count atoms in inorganic compounds

1. Sodium Chloride
2. Copper(II) Sulfate
3. Calcium Phosphate

In a molecule of carbon dioxide (CO_2), how many carbon atoms and how many oxygen atoms are present?
