

# UNIT CIRCLE WORKSHEET

## Part I: Basic Angles

- Find the sine and cosine for  $0^\circ$ .
- Determine the tangent and cosine for  $90^\circ$ .
- Calculate the sine and secant for  $180^\circ$ .
- Evaluate the cosine and cotangent for  $270^\circ$ .
- Find the sine, cosine, and tangent for  $360^\circ$ .

## Part 2: Quadrant Angles

- Compute the sine and cosine for  $30^\circ$ ,  $60^\circ$ , and  $120^\circ$ .
- Determine the tangent for  $150^\circ$ ,  $210^\circ$ , and  $300^\circ$ .
- Calculate the secant for  $135^\circ$ ,  $225^\circ$ , and  $315^\circ$ .

## Part 3: Negative and Beyond $360^\circ$ Angles

- Find the cosine and sine for  $-45^\circ$ .
- Calculate the tangent for  $-90^\circ$ .
- Evaluate the sine for  $450^\circ$  ( $90^\circ$  beyond a full circle).
- Determine the cosine for  $540^\circ$  ( $180^\circ$  beyond a full circle).
