

Unit Circle Worksheet

- Label the four quadrantal angles (0° , 90° , 180° , 270°) with their corresponding radian measures and coordinates.
- Label the eight key angles (30° , 45° , 60° , 120° , 135° , 150° , 210° , 225° , 240° , 300° , 315° , 330°) with their radian measures and coordinates.
- Mark positive and negative values for sine and cosine in the appropriate quadrants.
- Identify reference angles for all non-quadrantal angles.
- Shade or highlight one quadrant and label where sine is positive.
